Re: Invitation to Attend Global Free Trade Zone Conference 1995

Honorable Conference Invitee,

I would like to take this opportunity to invite you to attend Global Free Trade Zone Conference & Exhibit 1995 which will be held in Taipei International Convention Center from August 1 to August 7.

Your excellency office and the government departments have played an important role in the prosperity of the World Economy. We are so eagerly waiting for your participation and sharing your excellency experiences with the rest of the world.

The Conference 1995 will focus on global ID card, free zone planning and free trade development issues. Your excellency attendance and a delegate from your government to participate the discussions of these subjects and to present your country or free zone in your country are the short cut to embrace this rapidly shrinking World.

The idea and ideal for global ID was first announced in the Global Free Trade Zone Conference 1994 in Miami, U.S.A. by me. It is in an attempt to release the constrains that impose on the travelers to foreign countries and to create a trustful atmosphere within people and nations. It is believed that the global ID with its main function of visa exemption and more will enhance global interactions and global unifications.

Countries that join the global ID project will have the advantages of visitor increases, getting rids of costly works in screening visitors and issuing visas to them. Saving the budgets from the diplomatic offices and sharing the bonus with the organization that issues Global ID are the last while the best advantage that this project will bring forth to them.

There is no single way and single country can solve the increasing problems interrelateded in the international community. There is no time left, like we send out this letter with short time to response. Together we will prove we can race with time and challenge the impossible. All countries are equally invited. Please make the time to come and find the opportunities that hide in behind the Global Free Trade Zone Conference, and by the way, the Taiwan Miracle.

We are praying and looking forward to seeing you very soon.

Warmest and personal regards, Faithfully.

Paul Yuan-Cherng Hwang
Chairperson for the GFTZ Conference 1995

Hsin-Chu Scientific Industrial Park, Lu-Kang Industrial Park, Taichung Kang Thermal Power Plant, Taichung Port, Taichung City and Taiwan Folk Village

And it's all Happening in Taipei, Taiwan This Summer!

and you can't missed it

GLOBAL FREE TRADE ZONE CONFERENCE & EXHIBIT 1995

As leader of multinational corporation, international business, or a Free Zone Industrial Parks you are responsible for preparing your company to meet the challenges of the global marketplace through the 1990's and beyond. Your company must adapt to uncertain international trade negotiations, competition and diversification of workforces and other issues affecting your firm. The conference will feature industrial and governmental experts from around the world who will share their vision of what lies just over the horizon in the world of international trade for exchanging IDEAS and IDEALS.

Who will Attend

- * Any one who now, or in the future, has the responsibility for a firm's foreign-trade activity.
- * Any Public official who has trade-related responsibilities.
- * Executives who are engaged in corporate or commercial development or strategic planning want to know the Industrial Free Zone program's role in optimizing overseas opportunities.
- * Executives with financial or treasury responsibilities who want information to help them maintain their ability to evaluate their company's operations and explore overseas investments opportunities.

and skill-building seminars with the most up-to-date information on current and emerging markets.

- * Executives with production or logistics responsibilities to maintain their company's competitiveness given the whole new set of variables brought about by the formation of Common Markets, a new gateway for Exports and Imports opportunities.
- * Executives responsible for Communication and technology, explore how you can prepare to increase your business by using the global telecommunication services and technology.
- * Transshipment Update: Ports and Airports servicing the rapidly growing market demands. Competitive Transportation options and services linking your region to the rest of the World.
- * Country Presentations: As Free Trade Zones become conventional throughout the world, you will learn what countries are offering, in terms of political stability, tax incentives, infrastructure and workforce conditions to attract investors.

Cost of Conference Registration US\$775.

This price includes all conference sessions, 4 breakfasts, 4 luncheons, 5 dinners, coffee breaks and City tour.

Who will Exhibit?

For the fifth consecutive year we will offer companies the opportunity to participate in an exposition in conjunction with the GFTZ Conference. The exposition will offer exhibitors an excellent opportunity to meet with and talk to delegates from foreign-trade zones around the world. Exhibitors will display the latest equipment, products, and services to assist attendees as FTZ grantees, operators investors, and users strive to take full advantage of global marketplace trends and increase Global competitiveness.
