АННОТАЦИЯ

*письма на имя Президента Российской Федерации Б.Н.Ельцина от
К.А.Пола (США)*

Учредитель и президент организации "Всеобщая мирная инициатива" приглашает Президента Российской Федерации принять участие в церемонии, посвященной годовщине памяти жертв трагической бомбардировки Посольства США в Найроби, которая состоится 7 августа 1999 года и пройдет под руководством Президента Кении Даниэля Мои. Предполагается, что это будет день памяти всех пострадавших от преследования и жестокости, день торжества добра над злом. Ожидается присутствие большой делегации высоких официальных лиц.

Автор письма предлагает связаться с его офисом для решения вопроса о транспорте и расселении. Подтверждение об участии в церемонии Президента России, считает г-н Пол, необходимо также для Правительства Кении.

Dear Mr. President,

August 7th, 1999 marks the one-year anniversary of the tragic bombing at the U.S. Embassy in Nairobi—an act of terrorism that claimed 257 precious lives and injured more than 5000 others. The process of healing and rebuilding is well under way. Now, under the leadership of Kenya's President, Daniel Moi, the nation and the world are being summoned to come together to honor the victims and the families, and to fast and pray for peace.

This **Global Peace Initiative**, to be held on August 7th, will be a day of remembrance and consecration—remembrance of those who suffer persecution and violence, and consecration of ourselves to “overcome evil with good.” On behalf of President Moi and the entire Committee, I would like to invite you to join the great multitude that will be gathered in Nairobi on that day. The remarkable public meeting will be filled with music and words of encouragement and hope. The message will be that good is more powerful than evil, love is stronger than hate, and truth more enduring than the lie.

Millions of people meeting in more than 250,000 other locations throughout the world will be joining us in fasting and prayer for peace. As a part of the VIP delegation gathered in Nairobi, you will have the opportunity to share the hopes of other world leaders and the hearts of their people as we pray for an end to the violence that has scarred this century.

It has been my privilege to bring people together in many parts of the world—people whose differences in religion, ethnicity, and traditional culture have been reconciled through the power of faith, hope, and love. Indeed, it was at a public meeting attracting hundreds of thousands of Kenyans, held shortly after the bombing, that the idea of **The Global Peace Initiative** was born.

100 88 8977

Having been mentored by the late Mother Teresa, I have come to understand the potential of every man, woman, and child to serve others with humility and honor. Having recently been in Oklahoma City, Yugoslavia, China, India, and Africa, I have witnessed firsthand how it is possible for the survivors to look beyond their incredible losses and rebuild their communities with a new appreciation for the inestimable value of each person.

The Global Peace Initiative has been founded to respond to the human suffering resulting from hatred, sectarian violence, terrorism, and armed conflict around the world. The organization's mission, to restore human dignity to people persecuted for their beliefs, attacked in the name of culture, and massacred for political gain, will help to define the role of human rights organizations in the 21st century. While others do the important work of advocacy and traditional prosecution for the violation of human rights, we will work—in word and deed—to demonstrate the singular power of love and the elementary truth of our common humanity.

We are grateful to President Moi for the character and courage he is demonstrating in leading his nation in this day of remembrance and consecration. On this most special day in Kenya, we invite you to join other world leaders who will be coming to Nairobi to witness the triumph of the human spirit.

Please contact our office so that arrangements can be made for your travel and lodging. Of course it is important that the Kenyan government have an accurate list as soon as possible.

Sincerely,

Dr. K.A. Paul
Founder and President
